

# Help Make Youth Sports Safer in Our Community

## Why we need your support

Youth safety can not be compromised for a minute, or even a second. We need to help ensure that the children in our community are safe – our coaches need to be educated with **PREPARE!**

## What is PREPARE

**PREPARE** is an online sports safety education course aimed at educating coaches on topics dealing with injury prevention and emergency response. The seven-module course costs \$28 per participant. Upon completion, participants receive a Certificate of Completion, a Sports Safety patch and their name is added to the NCSS' National Coaches Registry.

## What is Parent Ambassadors for Sports Safety (PASS)

PASS, a network for parents who believe in providing a safe, healthy environment for youth athletes, establishes a link between sport administrators, coaches, parents and athletes. Members are committed to raising the standard of sports safety in youth sports.

## Why you need to get involved

Our children deserve coaches who are **PREPARED** for the unexpected on the playing field. We need your help to ensure that coaches in our community have been sports safety educated.

## Benefits of Sponsorship

Set your business apart from others in the community as leaders in the commitment for high standards in youth sports! You will receive a Sports Safety Sponsor Certificate that can be displayed at your business. Plus, when you agree to sponsor our athletic program, the National Center for Sports Safety will offer our organization a discount on the price of the course.

## What is the National Center for Sport Safety (NCSS)

The NCSS was founded to promote the importance of injury prevention and safety on all levels of youth sports through education and research.

Please support us and our commitment to raise the standard in youth sports in our community. Our children deserve coaches who are **PREPARED!**
